OBJECTIVE

Highly motivated and skilled Front-End Web Developer seeking an opportunity to contribute to innovative web projects. With a strong foundation and experience with modern frameworks like React and Next.js, I aim to utilize my expertise to create visually stunning and responsive web applications.

Skills

- Proficient in HTML, CSS, and JavaScript
- Experienced with TypeScript for scalable and maintainable code
- Skilled in React.js for building interactive user interfaces
- Knowledgeable in Next.js for server-side rendering and routing
- Familiarity with Storyblok for content management and dynamic content integration
- Strong understanding of responsive web design principles
- Ability to collaborate effectively in a team environment
- Excellent problem-solving and debugging skills
- Outstanding communication and interpersonal skills
- Experienced in designing and implementing efficient GraphQL APIs on the server-side
- Adept at utilizing GraphQL on the client-side for declarative data fetching, leveraging libraries like Apollo Client.

Experience

Front-End Web Developer | Alimcosoft Pvt Ltd | 1st June,2023 - till now

- Developed and maintained front-end interfaces for large-scale web applications using React.js and Next.js
- Implemented responsive layouts and utilized CSS frameworks for enhanced user experience.
- Integrated Storyblok for dynamic content management and real-time updates.

- Collaborated with back-end developers to ensure seamless integration of front-end and back-end functionalities
- Utilized TypeScript for type-safe and scalable codebase
- Conducted code reviews and provided feedback to ensure code quality and consistency.

NEECA:

- Developed frontend interface for NEECA project using Next.js & Storybook.
- Employed Next.js for fast, scalable React apps with server-side rendering and Storybook for UI component dev & doc.
- Designed intuitive interfaces for real-time energy efficiency data visualization. Ensured responsive layouts for optimal user experience across devices

E-commerce:

- Developed e-commerce frontend with Next.js & Storybook.
- Next.js used for high-performance, SEO-friendly site with server-side rendering,
- Storybook for UI component dev/testing. Designed visually appealing product listings, seamless carts, secure payment gateways.
- Employed responsive design for optimal experience across devices/browsers.

Project Tracker:

- Designed Project Tracker frontend with Next.js & Storybook for robust project management.
- Leveraged Next.js for server-side rendering, enhancing speed & SEO.
- Utilized Storybook for UI component dev/documentation, ensuring consistency.
- Implemented features like timeline tracking, milestone visualization for comprehensive project management.

Internship | Macrozone Pvt Ltd | Nov 2022 – Jan 2023

- Assisted in front-end development tasks using HTML, CSS, and JavaScript
- Worked on implementing responsive designs for various screen sizes
- Gained experience in utilizing JavaScript frameworks for interactive user interfaces
- Contributed to the development of web applications with a focus on user experience and usability

Education

B.S. in Computer Science | Sep 2018 – June 2022

- Major in Application Development, Database, Responsive Screens Design
- Final Year Project: Virtual Mouse Using Hand Gesture & Eye Detection
 - Developed a desktop application using JavaScript for mouse operations controlled by hand gestures
 - Implemented features such as clicking, dragging, volume control, and eye detection for window management
